HOW CAN YOU GET THE VENUE?

Kamniška Bistrica is located 30 km north of Ljubljana.

From Germany and Austria follow motorway via Villach and Karavankentunnel or Klagenfurt and Loibelpass (or Seebergsattel). After passing Kranj use exit “Airport – Brnik” and follow signs “Kamnik”.

For Grintovec follow direction Kamnik (15 km from exit), and then Kamniška Bistrica (10 km).

Coming from Italy (direction Venice), or Austria (Graz) after passing Ljubljana follow signs “Airport” and use exit “Airport”. Then follow signs “Kamnik” and after “Kamniska Bistrica”.

In the clear weather all the time driving from Kranj you can watch the Grintovec on your left: the highest mountain, like a pyramid!

GRINTOVEC 2016 – MOUNTAIN RUNNING WORLD CUP

On Sunday July 24th 2016, KGT Papež is organizing one of the most demanding and extreme mountain running races in Europe, the 18th mountain race to Grintovec. This is a race of superlatives, a race for the kings of heights, runners who are persistent, rebellious, and full of power and energy, runners who do it in every circumstances. The race to the heart of Grintovec is a special challenge that also has an amazing charm. That is why this race is one of the most popular races among mountain runners and is always well visited. In the year 2010 the race did not take place since KGT Papež organized the 26th World Mountain running Championship on Velika planina. An amazing event, organized on the highest level, was a big success and mountain runners of the world are still talking about it. We are proud that we honourably presented the name of Kamnik and Slovenia to the world. A documentary film about the World championship titled Welcome to Slovenia, presenting just a little part of the project, won the first price on the festival of sport films in Russia.

The 18th mountain race will take place in Kamniška Bistrica, at her beautiful natural attractions and wonderful scenery of Kamnik Mountains. After successful organization of the World Championship we expect even larger number of mountain runners (in 2012 – 322 runners) from all over the world.

The Grintovec mountain running race is an extreme race reserved for kings of the heights (2558 m). Running to the very heart of Grintovec and reaching its peak is a challenge and a self fight for every participant. And becoming the king of Grintovec is a dream for every mountain runner.
