PROGA

Trasa proge poteka po legendarni progi World Cup v kolesarskem parku Bike Parku Pohorje Maribor

V letošnji sezoni se start proge vrača na staro lokacijo pri Koči Luka, ne sveže zgrajen uvodni del klasične proge za spust. (izgradnja v letu 2024). Po startu in zavojih na travnem delu, sledi nov vstopni skok, nato proga zavije desno v enega izmed najtežjih delov celotne proge in sicer v zelo zahtevno "of camber" sekcijo, sledi veliko kompresij na strmih delih do samega izhoda iz gozda. Sledi sekcija Špelcin log ki zajema nekaj naravnih zavojev pred vhomom v gozdni odsek, za katerim kolesarje presenetijo tri zaporedne, zelo hitre »bande«. Zatem imajo tekmovalci približno 10s časa, da se pripravijo na »rock&roll« (del proge, posejan s skalami). Naslednji sektor je makadamska cesta, ki se konča s strmim desnim »dropom«. Temu sledi zelo hiter sektor, ki preide v viseč, tehnično zelo zahteven koreninski del. Struktura terena v spodnjem delu proge je zelo razgibana in prepredena s koreninami, kar od tekmovalcev zahteva natančno krmiljenje in držanje »idealne linije«.

Na izhodu iz gozda tekmovalce čaka še oster desni zavoj, 15 metrov dolg skok in cilj, ki je na nadmorski višini 335 metrov

Dolžina: 2,45 km

THE TRACK

The race track the legendary World Cup track in the Bike Park Pohorje Maribor.

In this year's season, the starting point of the track returns to the old location near Koča Luka, after the newly built first part of the classic downhill track (built in 2024). After the start and turns on the grassy section, there is a new entry jump, followed by a right turn into one of the most challenging sections of the entire track, namely a very demanding "off-camber" section. This is followed by many compressions on steep sections until the exit from the forest. The next section is Špelcin log, which includes some natural turns before entering the forest section, where riders are surprised by three consecutive, very fast "berms". Then, competitors have about 10 seconds to prepare for the "rock & roll" a section.

The next sector is a dirt road, which ends with a steep right "drop". This is followed by a very fast sector, transitioning into a hanging, technically very demanding root section. The terrain structure in the lower part of the track is very varied and interspersed with roots, requiring competitors to steer precisely and hold the "ideal line".

At the exit from the forest, competitors face a sharp right turn, a 15-meter long jump, and the finish line, which is at an altitude of 335 meters.

Length: 2,45 km
Start: 860 m
Finish: 335 m
Elevation drop: 525 m
